

# Zipline

a kind of high rope garden

The Zipline is a kind of high rope garden. But you don't climb. The garden consists of stretches where you can sit in the belts and ride across nature. The stretches become longer and it becomes more exciting. If you take 9 lines, you can ride across the forest and if you take 5 lines, you ride in the forest between the trees.

In my opinion, the garden is fun. If you ride, you can do tricks. That is very cool. The only thing I find a pity is that after a time it becomes boring.

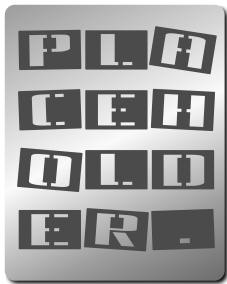

**Opening times:** from 8 am to 7 pm
